Private Music Instructors – Band

Here is the latest list of Wind and Percussion Private Music Instructors. Please note some of the basic guidelines we follow:

Private lessons are given by a Private Professional Instructor who:

1. Is a working professional expert on the instrument your student plays.
2. Offers weekly music lessons, usually 30-45-60 minutes in length.
3. Gives your student the desirable advantage of increased "one-on-one" feedback, not available in the classroom.
4. Provides your student with additional opportunities to participate in local recitals and contests.
5. Is able to fix "little" (and not so little) playing problems your student may encounter while working on the instrument.
6. Challenges your student with more difficult music and activities not generally available at school.
7. Helps your student become a better musician and player. Consequently, this extra help makes playing the musical instrument even more fun!!! (In addition, it helps our Music program continue to grow).

Listed below are names (and instruments taught) of Private Music Teachers who have successfully proven themselves with our students. If you do not see a name for an expert on your student's instrument, please contact me. Unless noted, the Instructor comes to the Ventura area.
